Governor Headlines Winter Commencement

"One of these days, I'm going to make it big." (From a UNH radio advertisement.)

Quoting this ad, Connecticut Governor Lowell P. Weicker, Jr., the principal speaker at the university's winter commencement exercises held January 15, said: "That says everything there is to say about today's celebration. This day is about potential....This day is about the future...your future."

Relating their prospects to his work as governor, Weicker told the graduates that his efforts to put Connecticut's economic house in order will mean a more stable future and better job opportunities for them.

"Connecticut has no future without you," he said, "and you would have no future in [this state] had we not brought everything we had to bear on righting the financial ship of state here."

During the commencement, at which more than 750 students were eligible to receive undergraduate and graduate degrees earned either last August or in December, Weicker and Judith S. Rodin, currently provost of Yale University and

Governor Lowell P. Weicker, Jr. and Judith S. Rodin received honorary doctorates during the January commencement. From left: President Lawrence J. DeNardis; Governor Weicker; Judith S. Rodin; Cheever Tyler, chairman of the UNH Board of Governors.

soon-to-be president of the University of Pennsylvania, received honorary doctorates from UNH.

Among those on hand to pick up their sheepskins from President Lawrence J. DeNardis were two women who were awarded doctor of science degrees in management systems. The two, Margaret Bauer of Hamden and Carey C. Curtis of New Haven, were the ninth and tenth persons to receive doctorates from the university since the Sc.D. program was licensed in 1986.

Besides Weicker, Rodin and DeNardis, participants in the commencement exercises included Cheever Tyler, chairman of the UNH Board of Governors, who presided; the deans of the university's several schools, who presented their respective degree candidates to the president; Edward J. Drew (B.S. '75, M.S. '86), director of security at United Illuminating and head of the UNH Alumni Association, who welcomed the graduates into the alumni organization; and Tyrone Griffin, a graduat-

Along with congratulations, this graduate was showered with large bouquets of flowers.

Tyrone Griffin, a master's degree recipient, led a tribute in memory of the Reverend Martin Luther King, Jr.

ing master's degree student who led a tribute in memory of the Rev. Martin Luther King, Jr. The Bethel A.M.E. Young Adult Choir of New Haven also participated in the tribute.

Following the commencement exercises, President and Mrs. DeNardis greeted the honorary degree recipients as well as the new graduates and their families at a special reception in the university's Student Center. □

Firsts Mark Fall 1993 Bartels Fellowship Event

Two "firsts" marked the fall 1993 Bartels Fellowship. Frances Friedman, a leader in the public relations industry, was the first woman to be named a Distinguished Bartels Fellow at UNH. Moreover, Friedman was greeted on the stage of Dodds Hall Auditorium by Clare Sweeney, the first female to serve as president of the Day Student Government on campus.

As if those firsts weren't enough, Friedman, the first woman to head a major international public relations agency (GCI Group, 1984-91) and currently managing director of L.V. Power & Associates of New York City, captivated nearly 250 students, faculty members and guests with her fellowship address—a multimedia presentation entitled "Painting Faces: The Art of Public Relations."

The purpose of a public relations effort—defined by Friedman as the "art of painting faces"—is to present the best features of a product or service while "shadowing over" its negative aspects. She cautioned, however, that all public relations materials must be truthful if they are to succeed. One need not call

Fran Friedman (r) meets with students during her day at UNH as the Bartels Fellow.

attention to faults, she explained, but one must never falsely represent the facts.

Videotapes of several examples of Friedman's award-winning work illustrated her points about quality public relations and its role in today's business world. Highlights included a comprehensive public relations campaign to introduce a new Reebok shoe and a promotional

piece on the art of Mexico.

As part of her day-long stay on campus, Friedman participated in meetings, discussions and classes with undergraduate students and faculty from the UNH School of Business and attended an informal luncheon. Along with the fellowship address, a visit with students in the Executive M.B.A. program rounded out her day. □

Ann Andrus (center), winner of the Governor's Circle Transportation Award, with former New Haven Mayor John C. Daniels (left) and Associate Provost Brenda Williams (right). The award is given to individuals and corporations who "contribute to alternative transportation and help to reduce air pollution." Andrus started a train-car pool that transports her and four other UNH employees on the Shore Line East train to New Haven's Union Station, where they pick up Andrus' car and drive to UNH. Due in part to the group's efforts, the New Haven Parking Authority agreed to cut by 50 percent the rate charged to those who commute by train and park overnight in the Parking Authority's Union Station lot.

Plans in Works to Expand Cyprus College Relationship

UNH is exploring the possibility of adding more programs to its cooperative educational agreement with Cyprus College in Nicosia, Cyprus, says Provost James Uebelacker, who travelled there last fall. "A master's degree in computer science may be one option," he said. "Cyprus College has impressive computer facilities and excellent computer science programs." The current agreement enables students at Cyprus College to receive the M.B.A. degree from UNH.

UNH's cooperative educational agreement with Cyprus College has taken various forms since its inception in 1981. The original agreement enabled Cyprus College students to transfer to UNH, and their credits were accepted through an articulation agreement.

In 1987 a new agreement between UNH and Cyprus College was signed under which part of the university's M.B.A. program would be offered at Cyprus College, using the same curriculum and textbooks as offered at UNH. Under this agreement, faculty credentials are approved by UNH, and academic standards are based on the same criteria as those applied to UNH students. All textbooks are in English, and the full curriculum is taught in English.

Until now, Cyprus College students have been required to take the

President DeNardis met with Cyprus College administrators during his visit to Nicosia, Cyprus, last year. From left: Christoforos Hadikyprianou, director, planning and development, Cyprus College; Marina Alexandrou, director, college relations there; Andreas Eleftheriades, Cyprus College director general; President DeNardis.

final third of the degree program in West Haven. However, in 1993 the original agreement was once again expanded such that the full curriculum may now be offered in Cyprus, with the final courses to satisfy residency requirements taught by UNH faculty on the Cyprus College campus. The first contingent of UNH faculty will be sent to Cyprus this year. Moreover, M.B.A. students from the main campus may now take courses in Cyprus if they choose.

Uebelacker's trip to Cyprus followed President Lawrence J. DeNardis' visit there in January

1993, when he met with Cyprus College Director General Andreas Eleftheriades, a Pace University M.B.A. graduate who received an honorary degree from UNH in June 1993. "I was very impressed with the college, the staff and facilities," said DeNardis.

According to M.L. McLaughlin, dean of the university's School of Business, who has also toured the Cyprus campus, "Cyprus College has a state-of-the-art facility. The college draws students not only from Cyprus but from the entire Middle East as well."

Following his recent talk at UNH, Zeiden Atashi (center), special adviser to the Israeli delegation to the United Nations, joined hands with President Lawrence J. DeNardis (left), and Vito Mazza of West Haven, a former state legislator and long-time community activist. Atashi spoke on the Mideast peace process and the status of relations between Israel and the Palestine Liberation Organization. His talk was jointly sponsored by UNH and the Office of Mayor Richard Borer of West Haven.

UNH Stations Hum With Activity

Students Join Crew of TV Series

UNH students have the opportunity to work as crew members on the live taping of a television program, thanks to WHAI-TV, Channel 43, operated by Bridgeways Communication Corporation, a full-power commercial television station headquartered in Fairfield County.

"Dialogue with Laurel Vlock," a twice-weekly program videotaped in the university's television studio and broadcast on WHAI-TV, is a public affairs series which focuses on personalities, organizations, issues and concerns of the Greater Bridgeport area. Students on the crew work under the supervision of Paul Falcone, audio-visual coordinator in the UNH communication department.

According to Vlock, founder of WHAI-TV and host of the series, "The students are very cooperative and easy to work with." She expressed hope that the experience "will help them in their future careers."

"Dialogue" airs Saturday and Sunday at 10 a.m., with repeat broadcasts on Monday and Tuesday at 7:30 p.m. WHAI-TV's programming also includes "The College and University Showcase," which highlights student, faculty and institutional video and film productions.

UNH's Paul Falcone (seated, right) has been instrumental in the filming of the television series "Dialogue with Laurel Vlock" for Channel 43. The programs are currently aired on three cable systems in Connecticut. Also seen here: Vlock (seated left) with individuals (and props) involved in an edition of "Dialogue" that focused on issues affecting Hispanic children and the senior citizens who serve as mentors for them.

Morris' Interviews a Weekly Feature of WNHU-FM

UNH is also home to a variety of other programming, including "Live the Journey," a show aired weekly on WNHU-FM and hosted by David Morris, associate professor in the university's marketing department. Featured on the program are people from the university as well as the surrounding communities. "The program focuses on the middle path," Morris said, and looks for the best in all of us. "Live the Journey" has been on the air for the past three years and has 155 shows to its credit.

David Morris

Jan Possidente, a UNH mechanical engineering student, is congratulated on her selection to represent the region at a summer 1993 meeting of the Society of Mechanical Engineers (ASME). Last April, the UNH chapter of ASME won first place in the regional Allied-Signal competition; the award is based on the activities of 27 member chapters in the region, which encompasses New England and part of Canada. Ms. Possidente received a financial award from UNH to support her activities, including a \$3,000 Dean's Engineering Scholarship. From left: Dean M. Jerry Kenig, School of Engineering; President Lawrence J. DeNardis; Ms. Possidente; Associate Provost Brenda Williams.

Forum on Minority Hiring in Sports Management Packs Dodds Hall Auditorium

It was standing room only in Dodds Hall Auditorium on November 3 when a high-powered panel gathered to discuss the topic of "Minority Hiring in Sports Management."

The eighth in a series of "Ethics in the Workplace" symposia held at the university since April 1990, the program focused on the disparity between the number of blacks and other minorities on the nation's professional and collegiate sports teams and the level of minority participation in the management of those teams and in other segments of the \$63 billion industry.

Featured panelists included Francis T. (Fay) Vincent, Jr., former commissioner of Major League Baseball; Richard E. Lapchick, director of the Center for the Study of Sport in Society at Northeastern University; and Gail Hunter, account supervisor for business development at Major League Baseball Properties in New York City.

Commentators were John C. Daniels, then mayor of New Haven and a long-time college football officiator; Allen L. Sack, professor and coordinator of the management of sports industries degree program at UNH; and Byron Campbell, a student in that program. Joel Marks, associate professor of philosophy, served as moderator.

Recalling his hiring efforts while Baseball Commissioner, Vincent said his goal was always to "do the right thing." That meant concentrating not only on fairness but on solid business practice, he reminded the audience. "It's just plain good business to be sensitive" on the issue of minority hiring, he said.

Noting that inequalities do exist, Vincent said that "people [will] make the difference" in overcoming them. "It's people who hire, people who establish priorities." And, he stated, it's people who will provide the leadership for change.

Hunter concurred. Recounting her personal experiences as a black female trying to break into the field, she said, "There is no easy way...but what is needed is a commitment

from the top to seek minority candidates," and not just go with the "same old crowd."

Lapchick, whose father, Joe Lapchick, one-time coach of the New York Knicks, brought the first black player into the National Basketball Association, pointed out that, although the situation is poor in professional sports, it is worse on the college level. Citing recent statistics, he noted that of 1,165 head coaching positions in the five main college sports, only 52 are held by blacks. Only 111 of 5,000 assistant coaches in those sports are black, he continued.

Despite the problems, the panelists agreed that progress has been made. "But we still have a long way to go to ensure that the rules of the game are the same for everyone," said Hunter.

Commenting on the discussion, Daniels noted that there are very few minorities among those who officiate at sports events—and also few minorities in the stands, especially at professional games. He further

Panelist Fay Vincent (l) chats with associate professor of philosophy Joel Marks during the "Ethics in the Workplace" symposium.

emphasized that sports can be an entree to education for many young people. Citing his own case, Daniels remarked that sports had, in fact, kept him in the game of education.

Other statements centered on whether the lack of minorities in sports management is due to prejudice or to a dearth of qualified minority applicants. Following a spirited question-and-answer period, panelists and audience alike appeared to agree that minority talent must be sought out and that executives of sports firms must take the lead in bringing more minorities into sports management. □

French Wine Tours Planned

Vincent Marottoli, an adjunct instructor in the department of Hotel, Restaurant & Tourism Administration, has several wine tours to France planned for 1994. Available dates are:

April 15-24
"April in Bordeaux: The Medoc"

The group will visit some of the most famous wineries in the Medoc region, including Mouton

Rothschild and Pichon Longueville.

June 30-July 10
"Burgundy Classic With a Touch of Champagne"

Highlights include lunch at the Mumms Champagne Cellars and a walking tour past famous Burgundy vineyards.

To reserve a place or for more information, call Vin at 469-0630.

Distance No Obstacle to Family From Alaska on the Road to West Haven

News of the excellence of UNH's forensic science program has spread far and wide. So far, in fact, that Larry Block loaded his family into a motor home last August and drove all the way from Alaska to enter the program.

"It took about two weeks," Block said of the roughly 5,000-mile trek to UNH from Palmer, Alaska, about 40 miles north of Anchorage. "The motor home is fully self-contained, so we had what we needed."

What they didn't have was a lot of room to roam inside the 28- $\frac{1}{2}$ -foot vehicle. Larry and his wife, Karen, brought along their three young children, Larry's mother, their black labrador and their cat. "The dog and Mom fought over the front seat quite a bit," Block laughed.

Remarkably enough, cabin fever didn't strike very often during the journey. "The kids were really good, but they did start to get tired of all the games we brought along for them to play with," Block said of his son, aged 5, and two daughters, aged 3 and 1. "The TV kept them occupied a lot." To break up the trip, the Blocks stopped at playgrounds and campgrounds whenever they could, and the group also spent a few days with Larry's sister in Wyoming and some time with relatives in Nebraska.

Born and raised in Alaska, Block received an associate's degree in police science from the University of Alaska in 1979 and served 15 years as a police officer in Palmer before taking a medical retirement. "After I retired, I worked with a vocational rehab center for a time while I decided what to do next," he said. "I like working with criminal evidence, and a friend who worked in the crime lab in Alaska recom-

mended I get into forensic science."

After looking into three undergraduate forensic science programs offered in the U.S., Block decided to apply to UNH. "I heard this was a great program and I decided Connecticut was the best place for the family to be," he said.

Karen Block, a native of England who was living in Kenai, Alaska

UNH or bust! "I'm really glad we took the trouble to come all this way," said Block, shown here with Karen and the kids.

when she met Larry, also entered UNH last fall. "She's in the medical technology program, and we're both expecting to get our bachelor's degrees in three years," Block said.

"The people at UNH have been super right from the start. Dick Baker of Campus Security was a big help, and the dean of admissions, Steve Briggs, even came by to help us move furniture when we finally found a place to live in Clinton."

Once Block graduates, he intends to return to Alaska to work in a crime lab. "I'll be handling criminal evidence, fingerprints, powder burns, blood spatters, that sort of thing, to help interpret what happened at crime scenes," he said.

"The forensic science program at UNH is fantastic, and I'm really glad we took the trouble to come all this way," Block said. "I'm anxious to graduate and take what I've learned back to Alaska." □

New Dean at UNH Branch

Jerry C. Lamb has been appointed to the new position of campus dean at UNH's South-eastern Connecticut branch in Groton.

Lamb will direct the operations of the branch campus, which has served up to 1,000 students per term, as well as develop and market the academic programs offered there.

"The major challenge for the southeastern region is to respond to the great economic changes taking place there," Lamb said. "The district has always been heavy in defense," he continued, "but now we're seeing the student orientation move away from the defense business and technical areas to other areas, such as tourism."

Lamb comes to UNH from Contraves USA, Inc. of Tampa, FL, where he had served as general manager of the Simulation and Systems Integration Division since 1990. Prior to that, he was chairman of the board of directors of SEATECH, an organization created to stimulate new businesses in southeastern Connecticut (1987-90); president and chief executive officer of Ship Analytics of North Stonington (1982-90); and a manager at the Naval Underwater Systems Center in New London and Newport, RI (1970-82).

Lamb's academic affiliations include the University of Connecticut, Mitchell College and Connecticut College. At the latter institution, he was both a visiting lecturer in psychology and computer science and director of the computer center.

"We need to continue to offer new programs, such as the master's degree in education introduced this fall," Lamb said of his plans for the branch. "We will also serve those in transition, who are reentering the work force."

"Our goal," he concluded, "is to become the leading four-year comprehensive educational institution in the southeastern area."

Homecoming, Parents Weekend Attract Enthusiastic Crowds

The UNH Chargers football team didn't disappoint their fans at Homecoming '93 in October. Friday night's pep rally must have done the trick because on Saturday the team beat the Panthers of Virginia Union University 71-28. Homecoming King and Queen, Vincent Doll and Lisa Paterno, led their "entourage" to the stadium during Saturday's parade. The winning float was constructed by Phi Sigma Sorority, and second place went to Delta Chi Fraternity. In the banner competition, first, second and third places went to Chi Kappa Rho, the Black Student Union and the Criminal Justice Club, respectively.

Charger defensive back Tory White, #44, signs autographs for some young fans.

You're never too young to root for the Chargers!

Defensive players rest up for more action. From left: #14, Scott Riggs; #25, Dan Dandrow; #98, Bill Covert; #97, Chris Lunz.

Anne Godfrey (l) of Laguna Beach, California, received the distinction of "parent who travelled the farthest distance to attend parents' weekend." Bill Leete, vice president for student affairs, presented a bouquet of flowers to Godfrey, who had come to see her daughter, Kristina, a senior majoring in communication, at the UNH event.

UNH parents enjoyed a taste of college life during November's Parents Weekend, taking in athletic activities, a reception with President Lawrence J. DeNardis and a fun-filled Casino Night. Starting off the day with a breakfast reception, parents were invited to hear a faculty talk on how students make adjustments to college life. Lunch in the newly remodeled cafeteria was followed by a Chargers football game where UNH posted a 69-19 win over Bowie State University. During the ever-popular Casino Night, over 300 parents and students became high rollers at the gaming table, play money in hand. Music, refreshments and a raffle added to the enjoyment of the evening.

AROUND CAMPUS

This information was written by the staff of the Public Relations Department.

Provost's Office

Brenda Williams, associate provost, attended the Connecticut Humanities Council's 20th annual meeting, entitled "Perspectives on Race in the Era of Scheff vs. O'Neill: A Conference for Connecticut," at Wesleyan University on November 13. Williams served as a panel moderator during the afternoon session on "Race and Place in Connecticut." Williams has begun her second three-year appointment as a member of the Connecticut Humanities Council's Board of Directors where she serves on the Application Review and the Evaluation Committees.

Loretta K. Smith, Mildred Bohannah, and David de Wetter of the Center for Learning Resources attended the annual conference of the Learning Assistance Association of New England (LAANE) on October 29. Smith, vice president of LAANE, chaired the meeting.

Christine R. Markham, coordinator of the office for students' academic development, was among the presenters at the LAANE 10th Annual Conference held in Burlington, Massachusetts on October 29. Markham's paper, "Be Happy We're S.A.D." outlines how UNH's academic tracking process assists students in their efforts to become academically successful.

School of Arts & Sciences

Jeffrey Greene, assistant professor of English, has published new work in *Poetry*, *Southwest Review*, *Pequod* (NYU), and *Boulevard*. His book *To the Left of the Worshipper* is part of an ongoing exhibition at M.D. Anderson Library at the University of Houston. The exhibition catalogue has been distributed to 250 libraries.

Bruce A. French, professor of English, presented a paper on Dostoevsky at the annual conference of the South Atlantic Modern Language Association, held in Atlanta, GA in November. The paper was entitled "Dostoevsky's Idiot: A study in the Philosophy of Goodness." During the fall '93 semester, French also conducted a literature course at the Shoreline Unitarian Universalist Society in Madison. Part of an ongoing adult education program, the course was entitled, "Literature and the Search for the Good Life."

Paul Marx, professor of English, was a panelist at a conference on diversity at Hartford's Wadsworth Atheneum on November 18. The conference was sponsored by the Connecticut Diversity Council.

Caroline A. Dinegar, professor of political science, gave a talk on "Ter-

rorism Comes To America" to the Western Connecticut Retired Officers Association at the Quartette Club in Norwalk, CT, on February 8. This followed her talk on terrorism to the American Society for Industrial Security on Terrorism at the same club on January 4. She has been asked to write an article for the *Tulane Law Review* on the subject of "Terrorism as a Crime Against Humanity under the Nuremberg Doctrine."

Jeanne Maloney

Jeanne Maloney, associate professor of dental hygiene, was recently named the Dental Hygiene Distinguished Alumna by the University of Minnesota.

Mike Morris, professor of psychology, has co-authored an article with

On behalf of the UNH chapter of Alpha Lambda Delta, President DeNardis presented a check for \$300 to the U.S. Marines' "Toys for Tots" program, represented by Peter Collings (l), a reserve marine and member of the honor society. Not pictured were Brian Elliott and Dahlia Wedderburn, vice president and president, respectively, of Alpha Lambda Delta.

Robin Cohn published in the December 1993 issue of *Evaluation Review*. Research for the article, "Program Evaluators and Ethical Challenges: A National Survey," was conducted during Morris' sabbatical in 1991.

Robert Glen, professor of history, delivered a paper entitled "Religious Bigotry Portrayed: Illustrations for the Anti-Methodist Satires of William Combe" on October 2 at the Northeast American Society for Eighteenth-Century Studies, in New Haven.

School of Business

Ernest Dichele, professor of accounting, recently had his article, "Choosing & Designing a Qualified Retirement Plan After Tax Reform," published in *The Connecticut CPA Quarterly* and two other articles, entitled "Considerations in Adopting or Amending A Qualified Retirement Plan" and "Defective Qualified Retirement Plans and IRS Correction Programs," published in *Connecticut Lawyer*. He also ran in the NYC Marathon, finishing in the top third.

Martha Woodruff, associate professor of economics, **Jerry Allen**, professor and chair of the communication and marketing department, and **Ben Judd**, professor of marketing, co-authored a paper entitled "Gender and Satisfaction with Participation in Decision Making in Higher Education" which was presented by Woodruff and Allen at the 16th Annual Conference of the Organization for the Study of Communication, Language and Gender held October 7-10 in Tempe, AZ.

Steven D. Goldberg, assistant professor of management, was in November a guest speaker for the Greater Meriden Chamber of Commerce where he spoke on succession in family-owned businesses. In December, he spoke to a chapter of the Service Corps of Retired Executives (SCORE) on the university's minor in entrepreneurship and the work that UNH students are doing for small business and the New Haven community. Goldberg's talk was sponsored by the U.S. Small Business Administration.

School of Engineering

Carl Barratt, associate professor of mechanical engineering, presented at paper entitled "Square Wave Forcing of Non-linear Oscillators" at the second Experimental Chaos Conference in Washington D.C. last October.

Ismail I. Orabi, associate professor of mechanical engineering, chaired a session of the 14th Biennial Conference of Mechanical Vibration and Noise, held this fall in Albuquerque, New Mexico. He also presented a paper entitled "Dynamics Response of Hysteretic Structures Under Random Excitations."

Alexis Sommers, professor of industrial engineering, gave a paper entitled "Effectiveness Goals for a State-Assisted Center for Distribution and Logistics" at the Society of Logistics Engineers' Logistics Conference and Exposition in August 1993.

School of Public Safety & Professional Studies

Thomas A. Johnson has been appointed dean of the School of Public Safety & Professional Studies. Johnson was previously chairman of the Division of Criminal Justice at California State University.

Board of Governors

Joyce Resnikoff, member of the Board of Governors, received the 1993 Annual Community Service Award from the Mystic Chamber of Commerce on December 1. The award recognizes outstanding contributions to Mystic area chamber services.

Athletic Office

Deborah Chin, director of athletics, was elected to the board of directors of the National Association of College Women's Athletic Administrators.

Hotel Managers Stress Service

"The bottom line is gracious service," says Professor Mark Warner of the School of Hotel, Restaurant & Tourism Administration (HRTA). That was the shared message of four local hotel general managers who spoke to the university's Lodging Operations Management class, part of the master's program in HRTA. Although the managers, from the Marriott Corporation, Holiday Inn, Quality Inn and the Saybrook Point Inn, target different groups of clientele, they all stressed that human resources is a vital component in the hospitality industry.

Warner said the class had the opportunity to query the panelists on such functions as food and beverage service, engineering and maintenance, and marketing and sales. "It's the kind of event that bridges the gap between theory in the classroom and real-world application," said Warner. The panel discussion was a good example of cooperation between local area businesses and education.

Arnold Mann, an examination branch chief with the I.R.S., spoke to students in a UNH class on ethics in December. Mann, who was invited by Joel Marks, associate professor of philosophy, talked about the importance of ethics in the agency's work.

ALUMNI

This information was prepared and written by the staff of the alumni and development office. Submit copy to the Alumni Office.

Distinguished Alumni to be Honored at Scholarship Ball in April

Four graduates have been selected to receive Distinguished Alumnus awards by UNH's Alumni Association this year. Those to be honored at the 11th Annual Scholarship Ball on April 9 are Frederick W.

Farnsworth, E.M.B.A. '79, Mary M. Hart, B.S. '75, Thomas K. Lewis, Jr., B.S. '74, M.S. '76, and Ronald T. Urquhart, B.S. '81, E.M.B.A. '90.

"April in Paris" will be the theme of this year's springtime ball, to begin at 6:30 p.m. in the North Campus Athletic Complex. The gala will feature a gourmet dinner with dancing to the music of City Lights. A bidder's delight—a spectacular silent auction featuring 100 goods and services—will add to the evening's excitement.

Stephen B. Dunnigan, B.A. '82, M.B.A. '90, is chairman of the ball. Assisting him are Sara Miller-Brooks, B.S. '93, in charge of food and beverages, and Carolyn Bell, B.S. '87, handling entertainment and decorations.

The Distinguished Alumni selection committee was chaired by Ronald Manning, M.P.A. '78 and included 11 UNH graduates and staff who volunteered their time. "As in the past, this year's Distinguished Alumni reflect outstanding achievement not only in their professional and business careers, but also in their personal lives as activists and leaders in a wide range of community affairs," Manning said. Added Alumni Council President Edward J. Drew, B.S. '75, M.S. '86, "Those the Alumni Association honors demonstrate the fine quality of a UNH education and their achievements enhance all of our degrees."

Frederick W. Farnsworth

Frederick W. Farnsworth is looking forward to 1995. It will mark the centennial of Eastern Elevator

Company, Inc., of which he is president. The company, which manufactures and provides maintenance for passenger and freight elevators, was founded in 1895 by Farnsworth's grandfather, Frederick B. Farnsworth, a one-time New Haven mayor very active in the community affairs of his day.

Among the many organizations for which Farnsworth has served as director are the New Haven Chamber of Commerce, the Easter Seal Society of Connecticut and the New Haven YMCA. He has also served as president of the New Haven chapters of the Kiwanis Club and Goodwill Industries. From 1986 to 1989, Farnsworth was commissioner of the State Ethics Commission.

Mary M. Hart

Her work as a public relations professional with 16 years of experience in corporate, governmental and media positions, is but one side of Mary Hart's life. Community affairs is the other side. Active in the Greater Hartford Chamber of Commerce, Hart serves on its Council on the Environment, Women's Executive Committee and Board of Directors. She is also a member and director of the Operation Fuel program, Economic Resource Center, Inc. and the Connecticut Energy Foundation. Employed at CNG since 1985, Hart currently manages a budget of over \$700,000 as director of Investor and Public Relations for the Connecticut Natural Gas Corporation.

Thomas K. Lewis, Jr.

His A.S. degree in culinary arts, Lewis once wrote, [enabled me to] "cook my way" through UNH with jobs in local restaurants, country clubs and hotels.

Lewis made the successful transition from chef to a computer science expert when he graduated with his B.S. in business administration *magna cum laude* and his M.S. in computer science. In 1980 the two disciplines converged when he became director of management systems for the Marriott Corporation, responsible for a budget of over \$2.5 million.

The Reagan Administration engaged Lewis in 1982 as its director, automated systems, for the Executive Office of the President. He later became vice president, data processing, for the First Boston Corporation, one of the world's leading investment banks headquartered in New York City.

Lewis moved to Baltimore, Maryland in 1993 to become senior vice president and chief of information at U.S.F. & G. Insurance Corp. He currently manages over 600 employees and monitors a \$78 million budget.

Ronald T. Urquhart

To start from ground-level in the highly competitive credit card field, and in less than 10 years to develop 750,000 accounts with over \$1 billion in outstanding charges, would seem a 24-hour-a-day job. Not so for Ron Urquhart, first vice president of consumer credit at People's Bank, where he has directed credit card operations since 1984.

Urquhart currently serves on the executive board of the Quinnipiac Council of the Boy Scouts of America, is a board member and past president of the St. Joseph's School Board, and is an active member of the UNH Alumni Council.

He has been a pioneer of innovative credit card marketing plans, creating, for example, the first credit card aimed for the Hispanic consumer and marketed through the Telemundo Television network. Working in conjunction with SNET in 1989, People's Bank was the first to offer on one card the convenient combination of credit card, telephone calling and cash card privileges.

To volunteer your help for the Scholarship Ball, or to reserve a table, please contact the Alumni Office at 932-7270.

Alumni Profile:

Jeffrey P. Hazell, owner and president, Bar Harbor Lobster Company, Inc.

"At 15, I knew I wanted to be in the restaurant field," said Jeffrey P. Hazell, B.S. '83. "I thank UNH for helping me make that dream come true."

While many wait a lifetime for success, Hazell realized his dream in less than a decade. Owner and president of Bar Harbor Lobster Company, Inc. in Orlando, Florida, the 33-year-old entrepreneur runs one of the largest wholesale fish businesses in that state.

How did the Marblehead, Massachusetts native work his way up so quickly? "I decided on UNH because I could combine my career interests with football," said Hazell, who received his UNH degree in Hotel, Restaurant & Tourism Administration (HRTA). "I really liked the program and learned a lot—and I also enjoyed being a second stringer on the football team."

During his junior year at UNH in 1982, Hazell accepted a semester's internship in Disney's "Magic Kingdom College Program" in Orlando, Florida. "That was fun and gave me a chance to apply what I'd learned in some intensive restaurant experience." He continued on-the-job training during his senior year at UNH by taking

Ron Levine (r), B.S. 70, and his wife Naomi, were among the 17 UNH alumni who enjoyed a lavish lobster feast during an alumni reception hosted by Hazell in Orlando last December.

evening work at area country clubs and restaurants, then used the four-week winter break to test the waters in all areas of restaurant management.

Upon graduation, Hazell returned to Orlando and in 1986 began a lobster distribution business out of the garage of his home. "I had a lobster tank there with lobsters imported from Maine, and I was wholesaling about 1,000 lbs. a month right from the garage to Orlando restaurants," he recalled.

Today, Hazell's business has skyrocketed to a full-line monthly distribution of 250,000 lbs. of lobster and other seafood to restaurants throughout the state of Florida. He also provides cooking services. His 25,000-square-foot warehouse in Orlando employs 140 people and maintains 25 trucks. He also runs a chain of two Boston Lobster Feast restaurants.

Good things are happening on the homefront for Hazell as well. He and his wife, Telia, a dental hygienist, are expecting their first child in April. "We found out it's a boy," he said. "It's pretty exciting."

Last December, Hazell hosted a lavish lobster feast in Orlando for 17 UNH alumni, and he hopes to hold another reception in March. He has taken the first steps toward establishing a UNH alumni club in

Jeffrey Hazell is the proud owner of two Boston Lobster Feast restaurants in Orlando, Florida.

Florida. "I've gotten an enthusiastic response so far, and I hope to develop an official membership soon."

"It's very important that alumni help UNH grow and get better," said Hazell, "so that the university can keep serving students in the future so they have the kind of success I've had." A member of the President's Circle since 1989, Hazell donated his first \$1,000 to UNH just six years after graduation.

"It's really a great program there, and I can't say enough about it," he concluded of his UNH experience. "UNH helped me get where I am today." Judging by Hazell's accomplishments to date, he's sure to go even farther. □

Alumni Celebrate Season's Opening

When the Chargers launched their 1993-94 home basketball season on December 7, with men's and women's games against Springfield College, the UNH Alumni Association hosted a special opening-game celebration for alumni and their families. Festivities included a halftime 3-point shootout contest featuring the celebrants. Former UNH women's basketball star Carolyn Bell sank hoops six out of 10 times to win the contest.

Alumni had the opportunity to

meet the coaches of both basketball teams in a post-game reception held in the gymnasium's Athletic Hall of Fame. Even though the men's team lost in the final minute of the game, the women won handily.

Said Edward Drew, Alumni Association President, "I know the alumni who attended had a great time and I hope that this will start a trend of seeing more alumni at UNH sporting events in the future."

Charitable Gift Annuities Benefit UNH and Donor

You may be able to increase your income by making a gift to the University of New Haven. A charitable gift annuity can help you do both of those things, especially if you are 65 years of age or older.

Here's how it works. A charitable gift annuity is a contract between the donor and UNH wherein the university agrees to pay the donor a fixed income for the rest of his/her life. A gift to UNH in exchange for a charitable gift annuity is partly a gift and partly the purchase of an annuity. The donor will receive payments for life at a favorable payment rate depending on the individual's age. Currently, the payment rates are higher than a person can receive from a bank.

Rates are particularly attractive for individuals who are at least 65 years old. For example, a 65-year-old donor would receive annual annuity payments at the rate of 6.5 percent of the gift amount; payments would be at a 7.7 percent rate for a person aged 75; and someone 90 years of age would receive annuity payments at the rate of 11 percent. Payments are guaranteed as long as the donor lives.

To take this example further, a man or woman aged 75 who is in the 28 percent federal income tax bracket and who donates \$10,000 via a charitable gift annuity would receive payments of \$770 per year (i.e., 7.7 percent) and would realize a tax deduction of \$4,691. The same \$10,000, when placed in a certificate of deposit or savings account, where earnings are currently averaging only 2.8 percent, would receive just \$280 per year and would have no tax deduction at all. Additional advantages are available when appreciated stock or other appreciated assets can be exchanged for a charitable gift annuity.

In short, a charitable gift annuity will help UNH provide quality education and at the same time allow you to earn a greater income than can currently be realized from standard savings instruments.

To take advantage of this opportunity to help yourself and your university, please consider a charitable gift annuity. For more information, contact Bill DeMayo, UNH's Planned Giving Officer, at (203) 932-7130. □

The Legacy Society

Roland and Margaret Bixler, founding members of The Legacy Society of the University of New Haven, invite you to become a charter member by notifying UNH before June 1, 1994 that you have made a Planned Gift to the university.

Planned Gifts may include:
 A bequest in your will
 A charitable remainder trust
 A charitable gift annuity
 A gift of a life insurance policy
 A gift of real estate

Return this coupon before June 1, 1994 to William DeMayo, Planned Giving Officer.

- I have provided for a bequest to UNH in my will.
 I have made a planned gift described as: _____
 I wish this information to remain confidential.

University Receives Varied Gifts

Pfizer Corporation recently awarded UNH over \$6,000 worth of laboratory equipment to support a proposed master's degree program in cell and molecular biology. Included in the donation are more than 15 items that can be used for refrigeration, storage, sterilization and other research needs...

Through its Equipment Donation Program, AT&T has recently awarded the university's computer science department 20 personal computers and other equipment valued at more than \$116,000. Hundreds of colleges and universities submit proposals requesting the award. According to Roger Frey, chairman of the computer science department, the equipment, including 486 PCs, a server and printers, will mean greater availability to students throughout the university. The computing system may be used for everyday applications but is also powerful enough to support such functions as a local area network, international and intramural electronic mail, and other electronic data interchange...

UNH has been informed by the City of West Haven that the state has approved the request of Connecticut companies to receive a 50 percent state tax credit under the Neighborhood Assistance Act, a program designed to alleviate the state tax burden for Connecticut companies who donate dollars or in-kind gifts to state-approved non-profit organizations.

Companies donated nearly \$129,000 to UNH under the program, which is the largest total donated to any non-profit organization in the City of West Haven since the program's inception about 10 years ago. Donations were made for scholarship support, capital improvements and general operations.

Class Notes

1966

David A. Beckerman of Woodbridge, founder and president of Starter Corporation, has been elected to a three-year term on the board of governors of the University of New Haven.

1976

Mark A. Federico of Hamden was recently named Notre Dame of West Haven's "Knight of Honor," the school's top honor.

Peter F. Warren has been promoted to the rank of lieutenant in the Department of Public Safety/Division of State Police and has been assigned to Troop L in Litchfield as the commanding officer.

1977

Robert Connolly was promoted to corporate vice president of operations for Data Switch Corp., Shelton, CT.

Anna Balakian, a UNH honorary degree recipient, has authored a book entitled *The Snowflake on the Belfry*. According to Indiana University Press, the publisher, Balakian explores changing concepts of the language of poetry, interrelationships among writers, and problems of the creative process.

1978

Lt. Cmdr. Patrick B. Carmody recently reported for duty at Fleet Training Center, Naval Station, Norfolk, VA.

1979

Arthur J. Falcone has been named one of 100 teachers nationwide to receive the 1992-93 Sallie Mae First-Year Teacher Award, which recognizes outstanding performance by elementary and secondary school teachers.

1980

E. James Ferland of Mendham, NJ, chairman, president and chief executive officer of Public Service Enterprise Group Inc., was recently elected chairman of the board of directors of the

New Jersey State Chamber of Commerce.

Robert E. Lovell of Danbury has retired after 25 years of service with the Danbury Police Department, having attained the rank of captain. He has accepted a position as director of safety and security with Heritage Village, Southbury, CT.

1989

Al D'Addario of Southington has been promoted to vice-president, manufacturing for Bic Corporation.

1993

Gregory J. Casagrande has been appointed manager of the Information Systems Operation at the GE Research and Development Center.

John A. Gervino is currently an immigration inspector, U.S. Department of Justice. He is serving at Newark International Airport.

Alumna Update...

Amina Warsama, who received her B.A. *summa cum laude* in political science from UNH in June 1993, was headed for Cornell Law School until she took a fork in the road. "I decided to attend Columbia Law School instead and entered last August," she said. "I took my first law school exam in early January, and I think I did well."

Warsama has held a long-

time interest in children's rights and criminal law. "My initial plan was to become a children's rights attorney," she said, "but since coming to Columbia my eyes have been opened to so many areas of the law that are so interesting. I'm sure, however, that whatever I do I will still work for children's rights, perhaps on a *pro bono* basis."

SPORTS

This information was prepared and written by the Sports Information staff of the Athletics Department.

Fall Sports Roundup

For a team to post a .661 winning percentage is quite an accomplishment, but for an entire athletic program that is remarkable. The Chargers fall athletic teams enjoyed a 61-31 record this year, translating into another outstanding season.

The football team sported another undefeated regular season, its second straight perfect campaign, and finished with an 11-1 record including the playoffs. The team set an NCAA record for most points per game in a season, tying Florida A & M's standards of 54.7 points per game. Sixty-point games were not unusual as the Chargers offense scored 547 points during the regular season while the defense allowed 300 fewer points. New Haven coasted through the regular season, posting wins over West Chester, Buffalo, Clarion, Springfield, Carson-Newman, Virginia Union, Southern Connecticut, American International, Bowie State and Shepherd College. The team scored 50 or more points in six of its last seven games, with Southern Connecticut "holding" the Chargers to 47 in its meeting.

New Haven, extending its regular-season unbeaten streak to 20 games, entered the playoffs with a 10-0 slate and had to put its unblemished record on the line against Edinboro University. The Chargers held a narrow 21-14 lead at half-time but erupted for three third-quarter touchdowns, putting the game out of reach and allowing them to win 48-28. Roger Graham paced the offense with 215 rushing yards, his second 200-plus yard performance in four playoff games, and scored two touchdowns. Tony Willis caught two touchdowns while Jim Weir threw for over 250 yards in the game.

In the second playoff game, the Chargers faced Indiana University of Pennsylvania, which had allowed just three rushing touchdowns all season. New Haven managed five touchdowns on the ground—Graham scored three of the rushing touchdowns while A.J. Livingston, New Haven's second all-time leading rusher, added two more ground scores—but it was not enough as the visiting Indians posted a 38-35 victory, a win which propelled the team to the national championship game.

The football team was not the only fall team to reach the playoffs. The women's volleyball squad also received an NCAA tournament bid—for the sixth straight season. Head Coach Debbie Chin made the most of the bid and led her team to the NCAA quarterfinals before losing to eventual national champion Northern Michigan University. The loss ended the season for UNH but was a minor note in the team's impressive 38-3 final record. In fact, the Northern Michigan match was the only Division II loss for New Haven.

The volleyball season started out impressively as the Chargers won their first 22 matches before dropping a contest to Princeton. Following the second loss to Princeton, the Blue and Gold reeled off 14 straight victories, including a 3-1 win over Springfield College in the second round of the NCAA playoffs. Springfield was one of only four teams to win an individual game during a match against New Haven as the Chargers posted a 119-11 mark in individual games.

The women's soccer team impressed many despite playing its first season as a varsity sport. The team, which

faced as many as five nationally ranked teams during the year, ended the 1993 season with a 6-8 record under Head Coach Joe Machnik.

Several players excelled during the year including Angie Murray, who led the team in scoring with 20 total points (nine goals, two assists).

Freshman Mirielle Derose placed second in scoring with 15 total points (six goals, three assists); she and Murray were the only two players to score three goals in a game. Murray accomplished the task against Salve Regina while Derose hit the mark against Concordia. Three other players scored 10 or more points, namely Tara Meagher (11 points), Melissa Jolly (10) and Nikki Devaney (10). Nikki Demorro handled most of the goalkeeping duties, owning a 2.02 goals against average with 135 saves. She registered three shutouts during the season.

The men's soccer team was plagued with injuries which caused many players to commit to unaccustomed positions. The result was a 5-11-1 record and a 2-6 New England Collegiate Conference mark. Freshman Tony Cartiera scored 16 goals in 17 games and led the team with 35 total points. After Cartiera, senior Moussa Ndiaye placed second in scoring with eight points (two goals, four assists).

The women's tennis team continued to make strides as the squad posted a 1-8 record. The victory, which came against Bard College, was the team's first win in over 25 matches. □

Whipple Goes to Brown University

Mark Whipple, who led the University of New Haven football team to its only two playoff appearances and posted a 23-2 record over the last two seasons, has accepted the head coaching position at Brown University. Whipple graduated from Brown in 1979 after playing football and baseball for the Bruins.

An extensive search to find a new head coach is currently under way.

Graham Wins Harlon Hill Trophy As Nation's Best Football Player

Nobody does it better! A claim that many make but not many can back up. Junior tailback Roger Graham is one who can make that claim, and he has the 1993 Harlon Hill Trophy to prove it!

Graham earned the trophy (the Division II equivalent of the Heisman Trophy) by gaining 1,687 yards on 183 carries (9.3 yards per carry) and scoring a total of 24 touchdowns. His numbers were enough to lead Division II in scoring (13.8 points per game) and to place second in both rushing (168.7 yards per game) and all-purpose yards (231.9 yards per game). He accepted the award in front of more than 500 people at a special banquet that took place in Alabama on December 10.

Graham holds practically every school record at the University of New Haven including rushing yards in a game, season and career. He currently ranks 15th all-time in Division II with 4,346 rushing yards and needs 1,975 yards to become the all-time leading rusher in NCAA history for all divisions. This year, Graham won three Gold Helmet Weekly Awards, presented to the

UNH football standout Roger Graham (#34) received the Harlon Hill Trophy, given to the best player in Division II, after rushing for 1,687 yards and leading the nation in scoring with 134 points.

best Division II-III New England player each week, and received the 1993 Season Gold Helmet Award. He also was the first-team All-ECAC player and was a first-team member on the New England Football Writers team. Graham received the 1993 ECAC Player of the Year award and was named to the Associated

Press Small College All-America first team for the second straight season.

The tailback rushed for more than 100 yards in all 10 regular season games, extending his 100-yard streak to 21 consecutive contests. Graham could break the Division II record of 24 straight 100-yard games next season. □

Awards Plentiful For UNH Athletes

UNH athletes were not only rewarded for their efforts with winning campaigns on the field, but the players also received accolades off the field, many winning 1993 post-season honors.

Seven Charger players received awards this year: tailback Roger Graham, quarterback James Weir, wide receiver Tony Willis, offensive lineman Tom Dempsey, defensive lineman Chris Lunz, linebacker Bill Covert and free safety George Byrd. All seven were selected to the All-Eastern College Athletic Conference (ECAC) team as well as to the New England Football Writers All-Star team. Graham earned a spot on the Associated Press Small College All-America first team while Weir and Byrd received second team honors from AP. Byrd was the only multiple All-America player at UNH, also earning a spot on the prestigious Kodak All-America team.

Weir set a school record with 31 touchdown passes and threw just

one interception in 266 pass attempts, which set a Division II record for lowest interception percentage. Willis, the school's all-time leading receiver in practically every category, grabbed 71 passes for 1,074 yards and 11 touchdowns in 1993. The senior became the first UNH player to record more than 1,000 receiving yards in two seasons.

Byrd led the team in total tackles for the second straight season with 72, edging out Covert who collected 70 stops. Byrd also intercepted three passes this year, one of which he returned for a school-record 98 yards against Bowie State. Lunz became the school's all-time leader in sacks with 20.5 after securing eight quarterback tackles this season. Lunz moved from linebacker to the defensive line this year. (See accompanying story for Graham's statistics.)

In addition, four of the six starting women's volleyball players received

spots on the American Volleyball Coaches Association's All-Northeast Region team with setter Shala Asalita, outside hitter Elise Hutchinson and middle blockers Shirley Hoyte and Jane Grant each placing on the team. Three of the four players are newcomers for Head Coach Debbie Chin; Hutchinson, a sophomore, was the only returning starter on the 1993 campaign.

In men's soccer, Tony Cartiera played a large role in the New Haven offense despite being only a freshman. The striker was responsible for scoring 35 of the team's 59 total points, scoring 16 goals and assisting on three others. At one point, the New Britain native scored 11 of the team's first 13 goals. For his effort, Cartiera earned a spot on the All-New England Collegiate Conference second team, the only UNH player to earn a spot on the All-Conference roster. □

Calling All Alumni...

Over the past several decades, Special Olympics competitions have developed into world-class events. In July 1995, the Special Olympics World Games will take place in Connecticut, primarily in the Greater New Haven area. UNH will be one of several host campuses, which means that the university will house many of the athletes involved as well as host the world volleyball competition.

As a rehearsal for the 1995 activities, UNH will host a Connecticut Special Olympics invitational competition in November 1994.

The Alumni Council is seeking volunteers to assist in virtually every facet of both the 1994 and 1995 competitions. To join other area alumni in this rewarding project, please call the Alumni Office at 932-7270, or complete and mail the coupon at right.
